

Associate Degrees

Piedmont Community College offers three transfer degrees, the Associate in Arts (AA), the Associate in Fine Arts (AFA) and the Associate in Science (AS). All degrees provide students with a general education core, the foundation for a four-year baccalaureate degree. Courses are offered in the areas of English, literature, fine arts, foreign language, social and behavioral sciences, natural science, mathematics and physical education.

Through the use of approved electives, students may focus on specific areas, such as pre-business administration, pre-business education, pre-computer science, pre-criminal justice, pre-elementary education, pre-engineering, pre-mass communications and journalism, pre-secondary education, or pre-nursing. Upon successful completion of 65 semester hours of these courses, students will earn an Associate in Arts degree, Associate in Fine Arts degree, or Associate in Science degree from Piedmont Community College.

Transfer will be facilitated by the Comprehensive Articulation Agreement (CAA) between the 16 members of the University of North Carolina System and the North Carolina Community College System.

The CAA will enable PCC graduates in the AA, the AFA, or the AS degree programs to apply for admission to one of the 16 university system institutions or to one of the 22

private colleges and universities in North Carolina. Upon acceptance, these students will enter as juniors and will have fulfilled institution-wide, lower division, general education requirements.

Courses are approved for transfer through the Comprehensive Articulation Agreement. Community college graduates who have earned 64 semester hours of academic credit in approved transfer courses with a grade of "C" or better in each course and an overall GPA of at least 2.0 on a 4.0 scale will receive at least 64 semester hours of academic credit upon admission to a university. Courses may also transfer through bilateral agreements between institutions. Courses offered through bilateral agreements may not transfer to all receiving institutions.

All students will be assigned a faculty advisor who will guide them through the program and assist with the transfer process. Students are encouraged to contact their chosen four-year institution early in the Transfer Program.

The Associate in General Education (AGE) is a degree designed for students who complete 64-semester hours credit (SHC) of broad-based liberal arts classes. This program of study is not necessarily a transfer program.
